S ELAVAZHAGAN

SOFTWARE DEVELOPER

+91 7550090502 | elavazhagansampath31@gmail.com | Vellore, Tamil Nadu

SUMMARY

Motivated and detail-oriented B.Tech. student in Artificial Intelligence and Data Science. Aspiring Data Science professional with knowledge in Machine Learning and MVP development. Familiar with data preprocessing, visualization, and basic statistical techniques. Possesses foundational knowledge in networking concepts and communication protocols. Passionate about building data-driven solutions and learning emerging technologies. Problem-solving, teamwork, and analytical skills with a continuous learning mindset.

TECHNICAL SKILLS

Programming & design

Python	●●●●○	NumPy/ Pandas	●●●●○
HTML / CSS	●●●●○	UI/UX design(figma)	●●●●○

Cloud Computing

AWS EC2 / S3 / IAM	●●●○○	VPC(Virtual Private Cloud)	●●●○○
VirtualBox	●●●○○	Git / GitHub	●●●●○

Soft Skills

Problem Solving, Teamwork, Adaptability, Communication

INTERNSHIP EXPERIENCE

Cloud Infrastructure & Services Intern — Redback IT Solutions Private Limited

June 2026 (02 – 30 June 2026)

- Completed a hands-on internship focused on cloud infrastructure and services, gaining practical exposure to core AWS concepts including compute, storage, and identity management.
- Worked with virtualization tools (VirtualBox) and cloud networking fundamentals (VPC) to understand deployment environments.
- Certified by Redback IT Solutions Private Limited (recognized by MSME, NASSCOM, ISO) for active participation in the Cloud Infrastructure & Services track.

PROJECTS & EXPERIENCE

Software Engineer / Student Developer - AMCET Digital Innovation Cell(ADIC)

Project : Bus Tracking App

Tools: Dart(Flutter), APIs & Backend Integration

- Engineered the cross-platform campus transit app using Flutter and Dart. Integrated Render-hosted REST APIs to deliver live GPS bus tracking, student ID verification, and animated route timelines.
- Designed custom UI components, Managed the Android release lifecycle, configuring upload keystores and generating production-ready release builds for campus deployment.

Stack Arena — Tetris game

Tools: Java, HTML, CSS

- Developed an AI-powered version of the classic Tetris game with intelligent gameplay features and optimized block placement strategies.
- Implemented algorithms that analyze board patterns and predict the best possible moves to improve game performance and decision-making. Integrated concepts such as automation, real-time data processing, and problem-solving to enhance the gaming experience.

Hackathon Participant — MSME & Smart India Hackathon(SIH2025 & 2026)

- Collaborated in cross-functional teams to design and prototype AI-based solutions under competitive time constraints, including the Vehicle Accident SOS System (IoT + wireless communication).
- I am building a prototype for a **Societal Innovation Collaboration Portal** that connects citizens, universities, students, government, and industries to solve real-world community challenges.
- It uses **AI-based challenge categorization, university participation, student innovation proposals, funding, industry collaboration, and project tracking** to move ideas from problem identification to deployment.
- The government dashboard provides **centralized monitoring of challenges, solutions, projects, funding, industry contributions, and measurable social impact**.
- Participated in both college-level and national-level hackathons including MSME and SIH.

EDUCATION

B.Tech. — Artificial Intelligence and Data Science | CGPA: In Progress

Annai Mira College of Engineering and Technology, Ranipet | 2024 – 2028

Higher Secondary (10th – 12th)

K K S Mani Matric Hr. Sec. School, Vellore | 2021 – 2024

CERTIFICATIONS

- Cloud Infrastructure & Services — Internship Certificate, Redback IT Solutions Pvt. Ltd. (2026)
- Data Analytics online Masterclass
- English Typewriting — passed with distinction(Senior)

LANGUAGES

English · Tamil ·
